

Maven Income and Growth VCT 6 PLC

(formerly Talisman First Venture Capital Trust PLC)

Interim Report

For the six months ended 30 September 2013

VCTs are listed public companies which were introduced by the Government in 1995 to incentivise British tax-payers to invest in smaller UK businesses that are looking for growth finance.

VCT investment benefits the wider economy by stimulating growth, innovation and job creation, and offers individual retail investors an opportunity to participate in an asset class that is not generally available. The risk inherent in investing in small businesses can be mitigated through the range of tax reliefs available on investment in VCT shares.

Maven Income and Growth VCT 6 PLC (formerly Talisman First Venture Capital Trust PLC) was launched in November 1999 and has been managed by the team at Maven Capital Partners UK LLP since February 2005. It aims to achieve long term capital appreciation and generate maintainable levels of income for Shareholders through investment in a widely diversified portfolio of later-stage UK private companies.

You can buy new shares in Maven Income and Growth VCT 6 PLC by subscribing to an Offer, when one is open, and you can buy and sell shares on the London Stock Exchange through a stockbroker or a share dealing service.

Investment Manager's Review

Overview

The continuing focus for your Company is on achieving long-term capital appreciation and the generation of maintainable levels of tax-free income for Shareholders through the ongoing expansion of the private equity asset base.

The Maven team has continued to seek out suitable investment opportunities in profitable UK companies with established revenue streams and the portfolio now includes 35 later-stage private company investments, the majority of which are trading positively and paying a yield. The portfolio continues to generate improving levels of revenue, which is an important component in your Company's ability to sustain an attractive level of tax-free distributions to Shareholders.

During the six month period to 30 September 2013, additional funding for business expansion has been provided to five existing investee companies, and two significant new assets were added to the portfolio with the acquisition of HCS Control Systems Group and a new investment in Fletcher Shipping. Additionally, Maven has incorporated three new companies to invest in the retail, engineering and e-commerce sectors.

The trend of successful exits seen during the previous financial year has continued, and two profitable realisations were achieved during the period generating capital proceeds of £0.2 million.

We are pleased to note a number of awards in recognition of the quality of the Company's unlisted portfolio and Maven's investment management strategy. In April 2013 our investee company, Torridon, was announced as the Midlands regional winner of the *Mid-Market Private Equity-Backed Management Team of the Year* award at the BVCA Management Team Awards and, in the following month, Maven was announced as *Scottish Investor of the Year* at the Acquisition International M&A Awards, which recognise consistent achievement in the private equity transactional marketplace.

Most recently in September 2013, Maven enjoyed a double success at the Scottish Insider Deal and Dealmakers Awards, with the exit from Nessco Group Holdings winning *Sale of the Year* and Managing Partner Bill Nixon being named as *Dealmaker of the Year* in a category focused on individuals with a first class track record in completing or enabling transactions.

Highlights

- NAV total return of 54.1p per share at 30 September 2013;
- NAV at period end of 53.6p per share after payment of the final dividend of 0.5p in respect of the year ended 31 March 2013;
- Realisation of Atlantic Foods Group;
- Two new investments added to the portfolio during the period; and
- Proceeds received from realisations following the successful IPO of *esure*.

The most important measure of performance for a VCT is the NAV total return, which is the long term record of dividend payments out of income and capital gains combined with the current NAV.

Distributable reserves and dividends

The revenue stream from the portfolio has improved significantly over recent years and this enabled the payment of the Company's first dividend, in respect of the year ended 31 March 2013. Meaningful realisations have been achieved during the period under review, with the Company now in a position where it has a small net surplus in its distributable reserves. Discussions are in progress regarding potential exits from a number of other portfolio companies and, while there can be no certainty on the completion of successful disposals, any further realisations could generate additional capital gains which, along with any surplus revenue, may enable further dividend payments to be made to Shareholders.

The Board does not propose to declare an interim dividend, but will consider the status of the Company's reserves as at 31 March 2014 before making a decision on the proposal of a final dividend for the full year.

Share price and discount

There has been an improvement in the Company's share price during the period under review, with the share price having risen to 39.5p as at 30 September 2013 and representing a reduced discount of 26.3% to the NAV per share. The Directors are hopeful that a continued improvement in the Company's reserves and the potential to make further dividend payments, as referred to above, will see a continued enhancement in the rating of the shares.

Investment activity

During the period the Maven team completed two new private equity investments on behalf of your Company, alongside five follow-on investments in existing portfolio companies. At the period end, the portfolio stood at 45 unlisted and AIM/ISDX investments at a total cost of £2.8 million.

The following investments have been completed during the period:

Investment	Date	Sector	Investment cost £'000	Website
Unlisted				
Camwatch Limited	July 2013	Telecommunication services	10	www.camwatch.co.uk
Glacier Energy Services Group Limited	June 2013	Oil equipment services	59	www.glacier.co.uk
HCS Controls Systems Group Limited	June 2013	Oil & gas	13	www.hcscsl.com
Lawrence Recycling & Waste Management Limited	April 2013	Support services	3	www.lawrenceskiphire.co.uk
Lemac No.1 Limited (trading as John McGavigan)	September 2013	Automobiles & parts	16	www.mcgavigan.com
Manor Retailing Limited	June 2013	Retail	50	No website available

Richfield Engineering Services Limited	June 2013	Engineering	50	No website available
Search Commerce Limited	June 2013	e-commerce	50	No website available
Total unlisted investment			332	

Your Company has co-invested in some or all of the above transactions with Maven Income and Growth VCT, Maven Income and Growth VCT 2, Maven Income and Growth VCT 3, Maven Income and Growth VCT 4 and Maven Income and Growth VCT 5. The Company is expected to continue to co-invest with the other Maven VCT clients, which offers the advantage that, in aggregate, they are able to underwrite a wider range and larger size of transaction than would be the case on a stand-alone basis.

New investments

Five private company investments were added to the portfolio during the period under review:

- **Manor Retailing**, a new company set up to invest in the retail sector, where Maven has made a number of successful investments and sees the potential for further opportunities;
- **Richfield Engineering Services**, a new company established with a buy & build strategy targeting engineering businesses with a proven technical service or product; encompassing manufacturing, maintenance and spares & service capabilities;
- **Search Commerce**, a new company set up to invest in a business providing e-commerce platforms focusing on distribution, service and retail businesses;
- **HCS Control Systems Group**, a long established business that designs, manufactures, assembles and tests instrumentation control packages for the onshore and worldwide offshore oil & gas industry. HCS enjoys a large degree of repeat business from a loyal customer base and will focus on growth through internationalisation into key overseas markets. This acquisition was made by Burray Capital, a new company established by Maven in December 2012 to invest in the oil & gas sector; and
- **Maven Co-invest Fletcher**, a limited partnership established to invest in **Fletcher Shipping**, an Aberdeen-based operator of North Sea Platform Support Vessels that support the offshore oil & gas industry by transporting everything an oil rig needs to function 365 days a year, including production and drilling equipment, food, consumables, and replacement parts. Fletcher operates vessels which offer excellent reliability in harsh conditions, and has established an excellent track record for providing reliable, cost-effective supply solutions.

In May 2013, additional funding was provided to **Nenplas Holdings**, a specialist manufacturer of extruded plastic products and solutions that was formed following the successful sale of the Homelux division of Homelux Nenplas, and Maven led the secondary buy-out of the Nenplas business alongside the existing management team. Nenplas has a strategy for significant growth, and this investment supported the purchase of Polyplas, a manufacturer of complementary extruded products based in Worcestershire.

In June 2013, a follow-on investment was made into **Glacier Energy Services Group**, an oil & gas service group headquartered in Aberdeen with two operating divisions, Glacier Engineering and Glacier Offshore. The engineering division is a specialist provider of weld overlay and cladding services through the Wellclad trading company. The offshore business sells onsite machining services via two trading companies, Roberts Pipeline Machining and Site Machining Services. The Group is focused on growth within its core UK market and this investment funded the acquisition of Ross Offshore, a business that provides heat exchanger repair and refurbishment services for the offshore oil & gas industry.

Realisations

In March 2013, *esure* undertook a successful IPO, and a full realisation at the year-end carrying value was crystallised in May, with the majority of exit proceeds being received in cash alongside a small element of stock that will be subject to the normal price fluctuations associated with fully listed holdings.

The Manager is currently engaged with investee companies and prospective acquirers at various stages of a potential exit process. This realisation activity reflects the increasing maturity of a number of holdings, but it should be noted that there can be no certainty that these discussions will lead to profitable sales.

The table below gives details of all realisations during the reporting period:

	Year first invested	Complete/partial exit	Cost of shares disposed of £'000	Value at 31 March 2013 £'000	Sales proceeds £'000	Realised gain/(loss) £'000	Gain/(loss) over March 2013 Valuation £'000

Total disposals			272	333	324	52	(9)

¹Proceeds exclude yield and redemption premiums received, which are disclosed as revenue for financial reporting purposes.

In respect of AIM/ISDX holdings the Manager has continued its policy of disposing of quoted holdings for best possible value in cases where the investments were underperforming.

Other material developments

Following a serious fire at the **Lawrence Recycling & Waste Management** plant in June 2013, which has adversely impacted upon the company's trading prospects, the investment has been written down pending further developments. The reduced value is reflected in the statement of NAV at 30 September 2013.

Material developments since period end

Since 30 September 2013 one follow-on investment has been completed in an existing portfolio company and one new private company asset, **Maven Co-invest Endeavour**, has been added to the portfolio. This syndicate was formed by Penta Capital to invest in a new business, **Global Risk Partners**, a buy-and-build vehicle targeting the global specialty insurance and reinsurance markets which has already made its first acquisition. Penta is an established private equity firm with which Maven previously co-invested in the successful management buy-out of *esure* and the investment in Tosca Penta Exodus, which trades as Six Degrees Group.

Principal risks and uncertainties

The Board has reviewed the principal risks and uncertainties facing the Company, which were set out in full in the 2013 Annual Report, and are the risks involved in investment in small and unquoted companies. In order to reduce the exposure to investment risk the Company has invested in a broadly-based portfolio of mature companies in the United Kingdom.

The VCT qualifying status of the Company is reviewed regularly by your Board and monitored on a continuous basis by the Manager in order to ensure that all of the criteria for VCT qualifying status are satisfied. The Board is pleased to confirm that all tests continue to be met.

Valuation process

Investments held by Maven Income and Growth VCT 6 PLC in unquoted companies are valued in accordance with the International Private Equity and Venture Capital Valuation Guidelines. Investments quoted or traded on a recognised stock exchange, including AIM, are valued at their bid prices.

VCT regulation

The AIC worked closely with the FSA on Consultation Paper 12-19 (restrictions on the retail distribution of unregulated collective investment schemes and close substitutes) and its applicability to venture capital trusts. The Board supported the AIC in calling on the FSA to exclude VCTs from the proposals in the same way that investment trusts have been and was pleased to note the subsequent announcement by the FCA (which replaced the FSA) that VCTs had been excluded from the marketing restrictions.

The AIFM Directive came into force on 21 July 2011 and was implemented within the UK on 22 July 2013. The AIC has published a briefing paper reviewing the key issues, including confirmation that the UK will impose a compliance deadline of July 2014. The Board and the Manager have engaged legal advisers to ensure that the impact of the legislation has been considered fully, and the Directors have taken the decision to register Maven Income and Growth VCT 6 PLC as a Small AIFM. This will enable the Company to take advantage of the reduced reporting requirements and avoid the direct and indirect costs of appointing a depositary.

The Manager monitors all potential regulatory changes that are under consideration and keeps the Board informed of any implications for the Company.

Change of Company name

Following the payment of the first dividend, and given the further alignment of the portfolio with those of the Manager's other long-standing VCT clients, the Directors, under powers conferred by the Articles of Association, decided that it would be appropriate to change the name of the Company to reflect this. As a result, with effect from 3 September 2013, the Company became known as Maven Income and Growth VCT 6 PLC.

VCT Offer and fund raising

On 25 September 2013, the Company announced that it is planning to raise up to £1 million in a joint Offer for Subscription alongside Maven Income and Growth VCT, Maven Income and Growth VCT 2, Maven Income and Growth VCT 3 and Maven Income and Growth VCT 4, each aiming to raise up to £4 million; and Maven Income and Growth VCT 5 aiming to raise up to £3 million. It is anticipated that the Offer will remain open until 5 April 2014 in respect of the 2013/14 tax year and until 30 April 2014 in respect of the 2014/15 tax year, unless fully subscribed at an earlier date and subject to the Directors' right to close or extend the Offer at any time. The full terms of the Offer, which will include an over-allotment facility to allow the Company to raise a further £250,000, are set out in a detailed Prospectus that was issued on 24 October 2013, along with a Circular explaining the necessary authorities required for the Offer to proceed, which were duly confirmed by Shareholders at a General Meeting held on 27 November 2013.

The Company may use the money raised under the Offer to pay dividends and general running costs, thereby preserving for investment purposes an equivalent sum of more valuable 'old money' which operates under more advantageous VCT regulations. The proceeds of the Offer will provide additional liquidity for the Company to make further later-stage investments, and enable it to spread its costs over a larger asset base to the benefit of all Shareholders.

Outlook

Your Company will continue to focus on investing at prudent entry multiples in later-stage private companies with strong management teams and which are capable of paying regular income and offer significant potential for capital growth.

We believe this strategy is the optimal approach to deliver future growth in Shareholder value and to support a progressive dividend programme.

The accompanying Notes are an integral part of the Financial Statements.

Notes to the Financial Statements

1. Accounting policies

The financial information for the six months ended 30 September 2013 and the six months ended 30 September 2012 comprises non statutory accounts within the meaning of Section 240 of the Companies Act 2006. The financial information contained in this report has been prepared on the basis of the accounting policies set out in the Annual Report and Financial Statements for the year ended 31 March 2013.

The results for the year ended 31 March 2013 are extracted from the full accounts for that year, which received an unqualified report from the Auditor and have been filed with the Registrar of Companies.

2. Movement in reserves

	Share premium account £'000	Capital reserve realised £'000	Capital reserve unrealised £'000	Special distributable reserve £'000	Revenue reserve £'000
At 31 March 2013	-	(1,329)	57	2,389	(898)
Gain on sale of investments	-	52	-	-	-
Net decrease in value of investments	-	-	(48)	-	-
Investment management fees	-	(40)	-	-	-
Dividends paid	-	-	-	-	(27)
Tax effect on capital items	-	3	-	-	-
Net return on ordinary activities after taxation	-	-	-	-	30
At 30 September 2013	-	(1,314)	9	2,389	(895)

3. Returns per Ordinary Share

	Six months ended 30 September 2013 £'000	Six months ended 30 September 2012 £'000	Year ended 31 March 2013 £'000
The returns per Ordinary Share are based on the following figures:			
Revenue return	30	21	35
Capital return	(33)	47	198
Total return	(3)	68	233
Weighted average number of Ordinary Shares in issue	5,309,102	5,309,102	5,309,102
Revenue return per Ordinary Share (pence)	0.6	0.4	0.7
Capital return per Ordinary Share (pence)	(0.6)	0.9	3.7
Return per Ordinary Share (pence)	nil	1.3	4.4

The net asset value per Ordinary Share has been calculated using the number of shares in issue at 30 September 2013 of 5,309,102.

Directors' Responsibility Statement

The Directors confirm that, to the best of their knowledge:

- the Financial Statements for the six months ended 30 September 2013 have been prepared in accordance with applicable accounting standards and with the Statement of Recommended Practice 'Financial Statements of Investment Trust Companies' issued in January 2009;
- the Interim Management Report includes a fair review of the information required by DTR 4.2.7R in relation to the indication of important events during the first six months, and of the principal risks and uncertainties facing the Company during the second six months, of the year ending 31 March 2014; and
- the Interim Management Report includes adequate disclosure of the information required by DTR 4.2.8R in relation to related party transactions and any changes therein.

Unsolicited Offers for Shares

Some Shareholders have received unsolicited calls from organisations offering to buy their shares at prices much higher than the current market values. Whilst the callers sound credible, Shareholders should be cautious as the motives may be fraudulent. You can check whether the caller is registered with the FCA at www.fca.org.uk.
